DIAMANT UNIPOOL Ltd. - Europe's leading manufacturer of tailored pools and pool enclosures

TRADITIONAL MANUFACTURER SINCE 1994

TRADITIONAL CZECH MANUFACTURER WITH 30 YEARS OF EXPERIENCE

Our production of swimming pools started as a Czech family business in 1994 and our company quickly became a recognised manufacturer of pools and pool enclosures.

MORE THAN 20,000 SATISFIED CUSTOMERS

It is the excellent quality of materials, technology, and workmanship that allow DIAMANT pools and enclosures to become a part of several hundred homes and gardens throughout Europe every year.

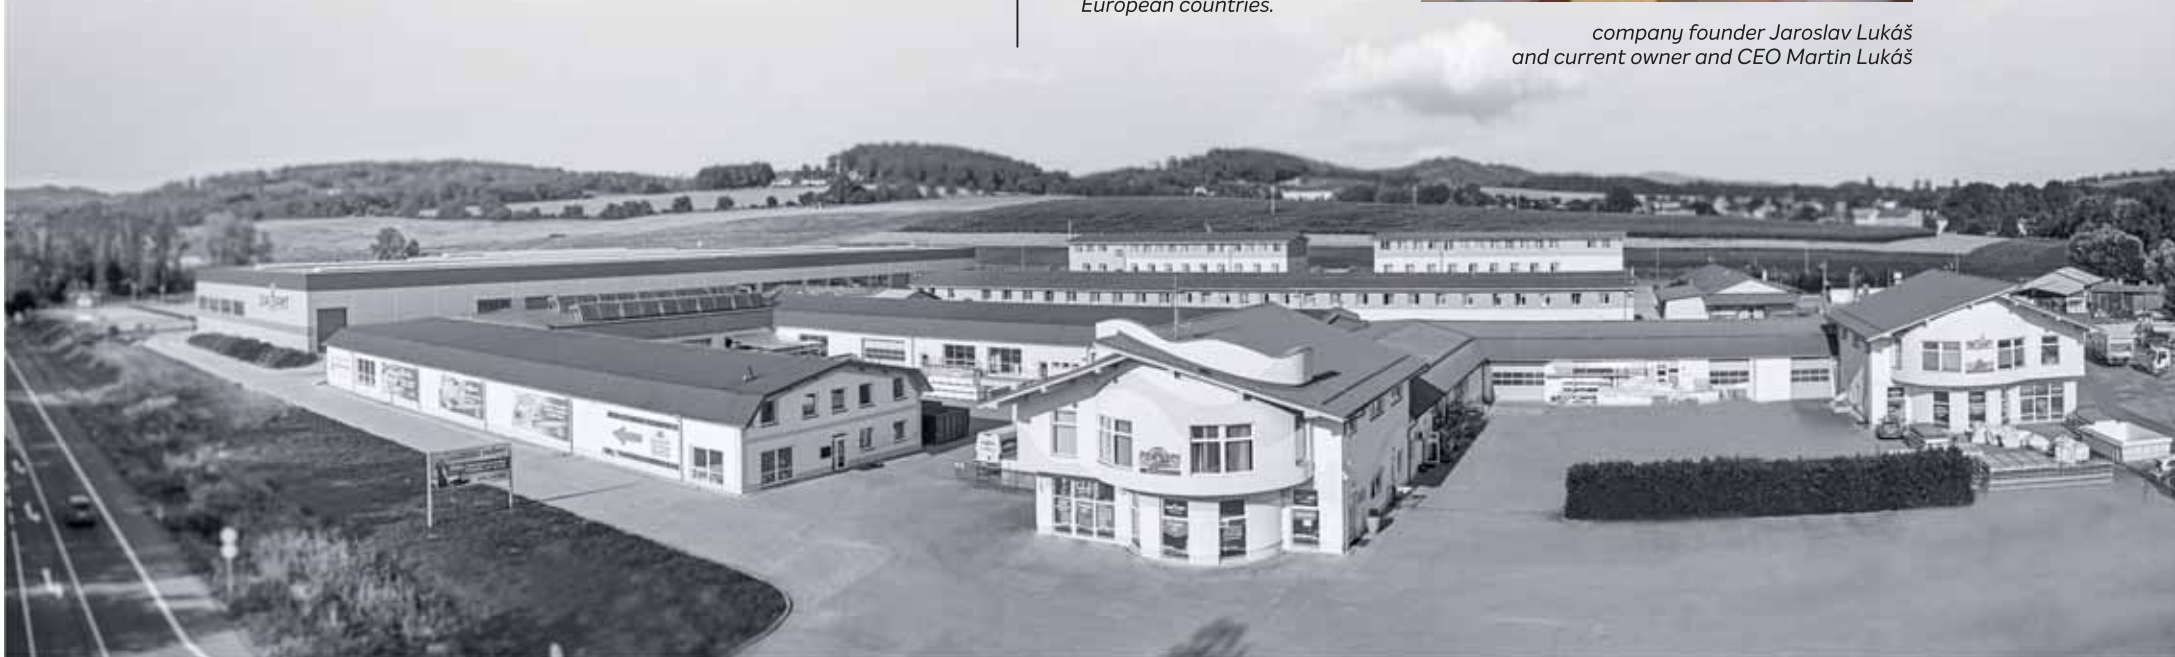

MODERN PRODUCTION FACILITY

In 2020, a new 7,000 m² production hall for stainless steel pools was completed, allowing all manufacturing to take place at the 17,000 m² site in Valašské Meziříčí.

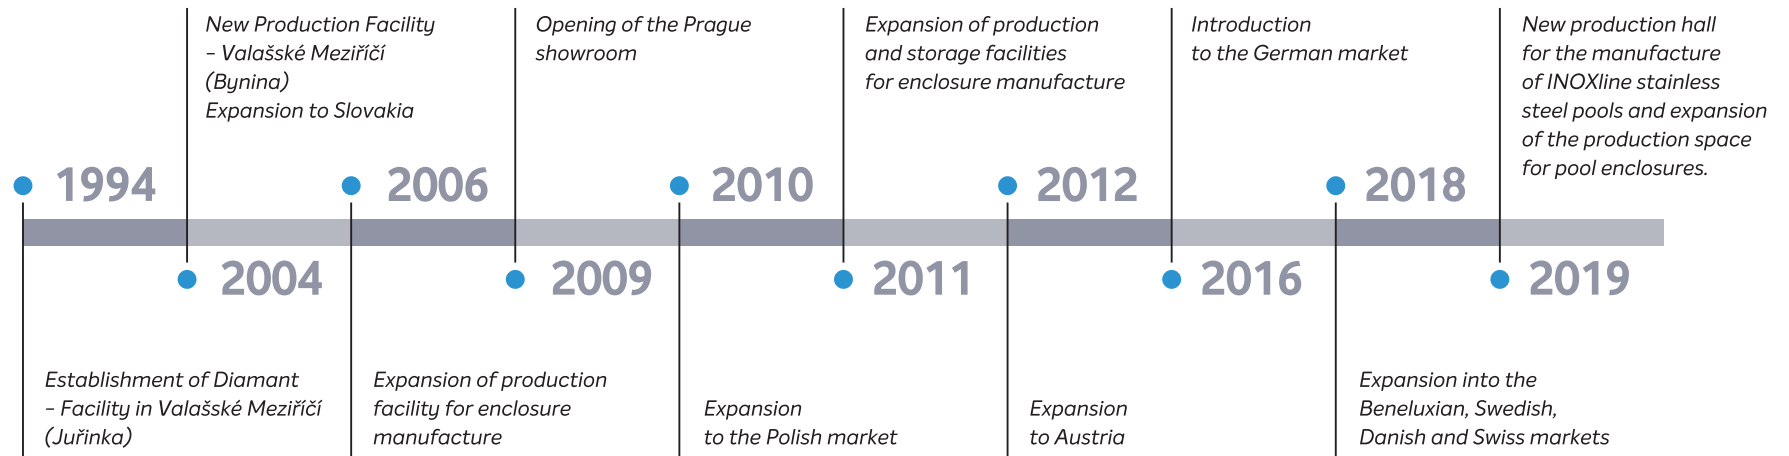

The Diamant brand dates back to 1994, when the company's founder, Jaroslav Lukáš, started a modest production of polypropylene pools. Since then, the family business has become a thriving company whose products are supplied to most European countries.

company founder Jaroslav Lukáš and current owner and CEO Martin Lukáš

DIAMANT POOL ENCLOSURES

Get the most out of your pool. More efficient, less expensive, and with no need to conform to the weather. Our wide range of shapes and colour options will ensure that the enclosure blends in with your garden.

These days, pool enclosures are a must-have feature of pools - especially because of current weather conditions. The enclosure will prolong the pool bathing season considerably and increase the value of investing in the pool. The pool enclosure is resistant to water and dampness and is low-maintenance.

ADVANTAGES OF DIAMANT ENCLOSURES

WATER QUALITY

Prevents water fouling, protects against dust, leaves, and insects.

SAFETY

Prevents children or pets falling into the pool.

ENERGY SAVING

Reduces costs of water heating, prevents heat loss, helps to effectively heat the water - the "greenhouse effect".

SEASON EXTENSION

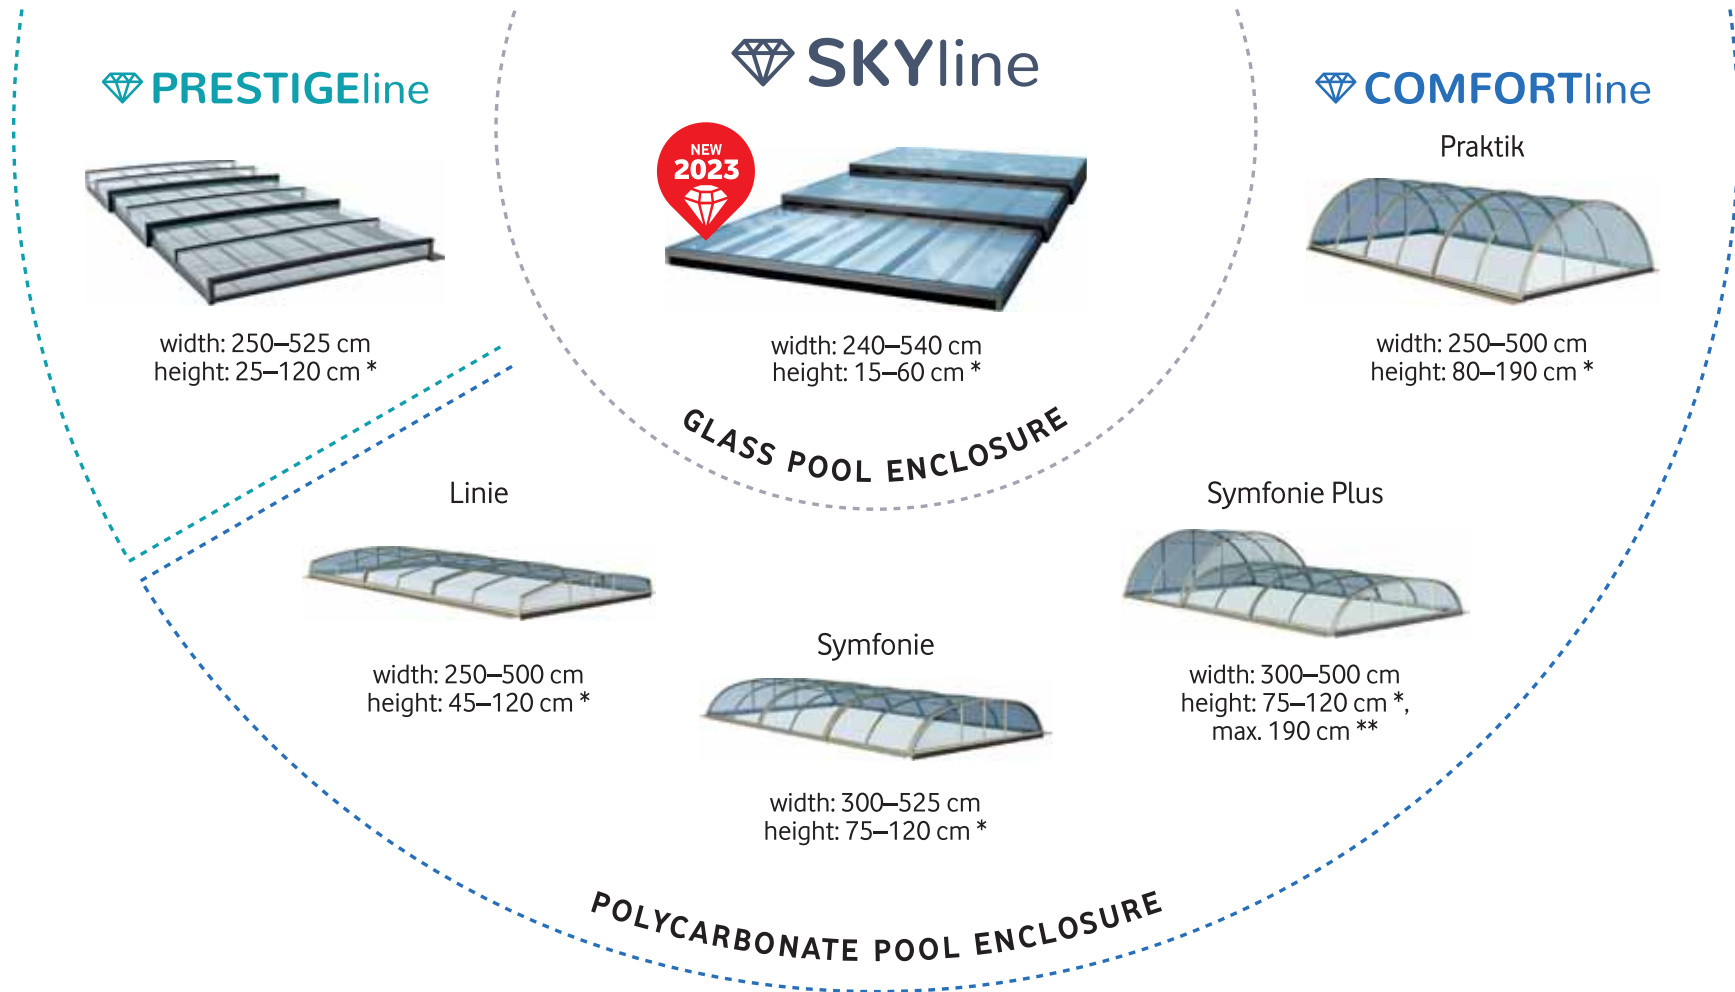

Prolongs the bathing season by several months and allows the use of the pool even in bad weather.

AESTHETICS

A wide range of shapes and colour options of profiles and panelling.

MODELS AND ENCLOSURE DIMENSIONS

The individual enclosure models can be manufactured in the following segment dimensions:

* The maximum enclosure dimensions are indicative only, they depend on the number of segments and panelling material. We will gladly provide you with specific options upon request.

** The maximum possible height of the first segment is 190 cm depending on the width of the segment.

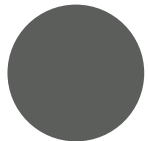

SKYline

EXTRA FLAT REAL GLASS POOL ENCLOSURE

The ultra-low and super-flat enclosure with tempered extra-clear 4 mm glass and no visible frame on top will surprise with its functionality and easy handling. Emphasis has been placed on stylish design, top quality of all details and smart features. This extremely compact, modern and high-quality pool enclosure will guarantee a long service life and a luxurious appearance.

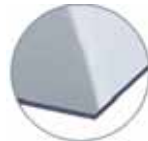

ENCLOSURE FRAME COLOUR

ADVANTAGES OF THE DIAMANT SKYline ENCLOSURE

- super-flat, modern and minimalist design: for a luxurious appearance
- clear view: a crystal-clear pool view with extra-clear glass
- easy maintenance: easy to clean and scratch-resistant
- long lifespan: built for a prolonged service life
- high durability: crafted from top-quality materials

CONSTRUCTION OF DIAMANT SKYline ENCLOSURE

EMPHASIS ON DESIGN

The solid frame made of thick-walled aluminum profiles in a modern metallic gray color is hidden under a uniquely clear glass with an elegant black edging.

FRONT VENTILATION

The front ventilation system features a practical hinged front on the larger segment, ensuring essential air circulation. It facilitates controlled airflow through the enclosure's front, maintaining a comfortable indoor environment.

LONG-LASTING QUALITY PRESERVED

High resistance to scratching, mechanical damage and maximum resistance to hail and other extreme weather conditions is a key aspect for choosing this pool enclosure.

SINGLE RAIL MOVEMENT *

Movement is guaranteed by the wheels, with an ultra-slim 65 mm rail on one side guiding them for effortless movement. An embedded version is also available for seamless terrain integration.

EXCLUSIVE ELECTRIC DRIVE

SKYline offers an electric upgrade with a smart remote control, guaranteeing optimal segment sliding. It includes automatic locking and safety stops for maximum safety, enabling effortless electrical sliding of all segments with the touch of a button.

SIMPLE MAINTENANCE, LOW OPERATING COSTS

SKYline's smooth, durable surfaces simplify maintenance and cleaning. Segment separation allows easy access and cleaning, ensuring it's always in top condition for use.

* This model can be equipped with a double-sided rail guide, necessary for larger covers.

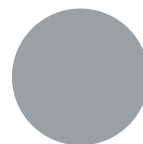

PRESTIGeline

DIAMANT PRESTIGeline PRODUCT SERIES

We have designed the pool enclosure to meet today's needs, especially contemporary architectural trends. Both the form and the materials give the roof a luxurious, minimalistic style. The system is equipped with a single rail on one side which allows barrier-free access to the pool from 3 sides with minimal effort, thanks to its resilient and stable construction.

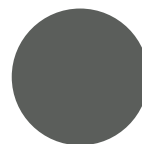

CONSTRUCTION COLOUR OPTION

silver powder coated RAL 9006

anthracite powder coated RAL 7016

metallic grey

CONSTRUCTION PANELLING OPTIONS

solid polycarbonate with double UV stabilisation, 4 or 6 mm

transparent solid polycarbonate 4 / 6 mm

smoked solid polycarbonate 4 mm

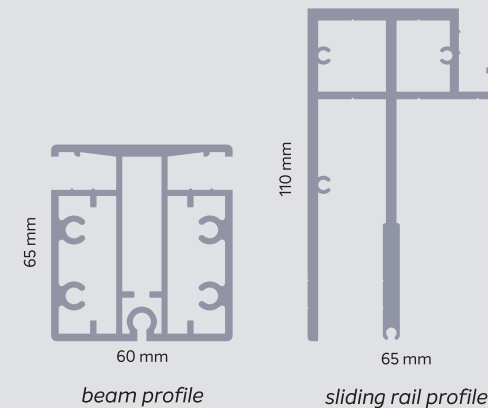

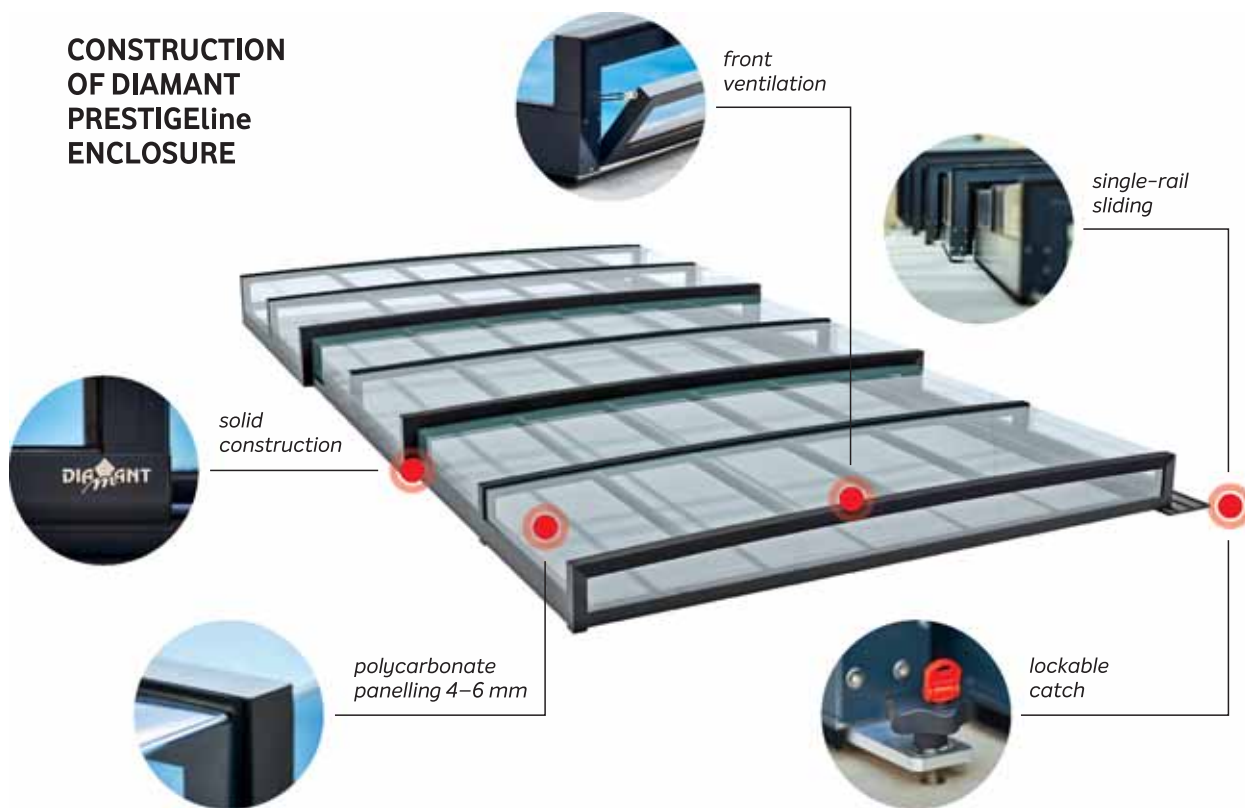

solid grey polycarbonate 4 mm

ADVANTAGES OF THE DIAMANT PRESTIGELINE ENCLOSURE

- modern and sophisticated design
- single-rail sliding
- high-level stability
- easy operation

CONSTRUCTION OF DIAMANT PRESTIGELINE ENCLOSURE

MODERN AND SOPHISTICATED DESIGN

The DIAMANT PRESTIGELINE enclosure offers clean and modern design and ambitious features, thus increasing the value of your house and garden.

SINGLE-RAIL SLIDING *

The system is equipped with a single rail on one side which allows barrier-free access to the pool from 3 sides with minimal effort thanks to the substantial and stable construction.

FRONT VENTILATION

The practical low-maintenance front ventilation will ensure the necessary air circulation while maintaining safe entry into the pool.

SUPERIOR CONSTRUCTION STRENGTH

The combination of thick-walled profiles and polycarbonate panelling (4–6 mm) ensures a high level of stability.

LOCKABLE CATCH

The lockable catch increases the safety of the pool and keeps it protected even against extreme wind.

EASY OPERATION

Thanks to its substantial and stable construction and single-rail system, you may operate our enclosure with minimum effort. It's also possible to install an electric motor with a convenient remote control.

COLLECTOR OF INDIVIDUAL SEGMENTS

Our enclosure segments are telescopic. It is only necessary to manually unlock the outermost segment when extending or retracting the enclosure. Therefore, the operation of the enclosure is much easier and faster.

* This model can be equipped with a rail on each side.

SOLID CONSTRUCTION PROFILES

The anodised aluminium profiles are extra solid and durable. That is why we guarantee a 10-year warranty. The anodised surface finish of the profiles provides lifespan, stability and resistance to corrosion (natural effects, chemicals, or salt in the pool).

CONSTRUCTION PANELLING OPTIONS

The panelling of the entire enclosure is made out of material from the world's leading manufacturer of extruded sheets, the Swedish company Arla Plast. Our polycarbonate is always equipped with a double stabilisation against UV radiation.

CATCH AND COLLECTOR SYSTEM ON COMFORTline ENCLOSURES

- fast and easy maintenance - telescopic enclosure system facilitates easy movement of segments
- an extremely stable and durable system
- maximum flexibility and comfort - after releasing the collectors, the segments can move in both directions independently

STAINLESS STEEL CATCHES

The DIAMANT COMFORTline enclosure is now delivered with high quality stainless steel catches as standard.

TELESCOPIC COVER SYSTEM

An exclusive solution, unique to DIAMANT: To move all cover segments, simply release the catches of the outermost segments.

LOCKABLE AND COMPLETELY SAFE

The whole system can also be ordered in a lockable version. This option increases safety and protects the pool.

CONTINUOUS ACCESSIBLE SLIDING RAILS

EFFORTLESS EXTENSION AND RETRACTION

The sliding tracks and the entire sliding system are constructed with an emphasis on minimal resistance when handling the enclosure.

LOWER THAN 15 mm

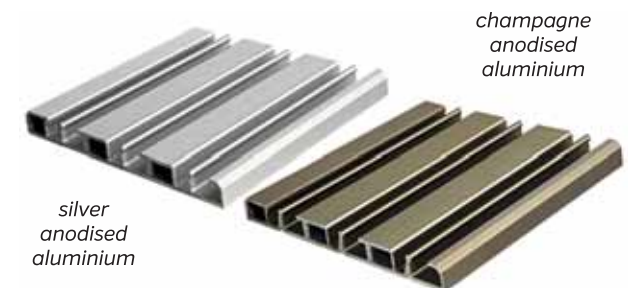

The flat accessible profile does not hinder the use of the pool when the enclosure is retracted.

ANTI-SLIP SURFACE

Ensured by the anti-slip grating of the sliding rail top surface.

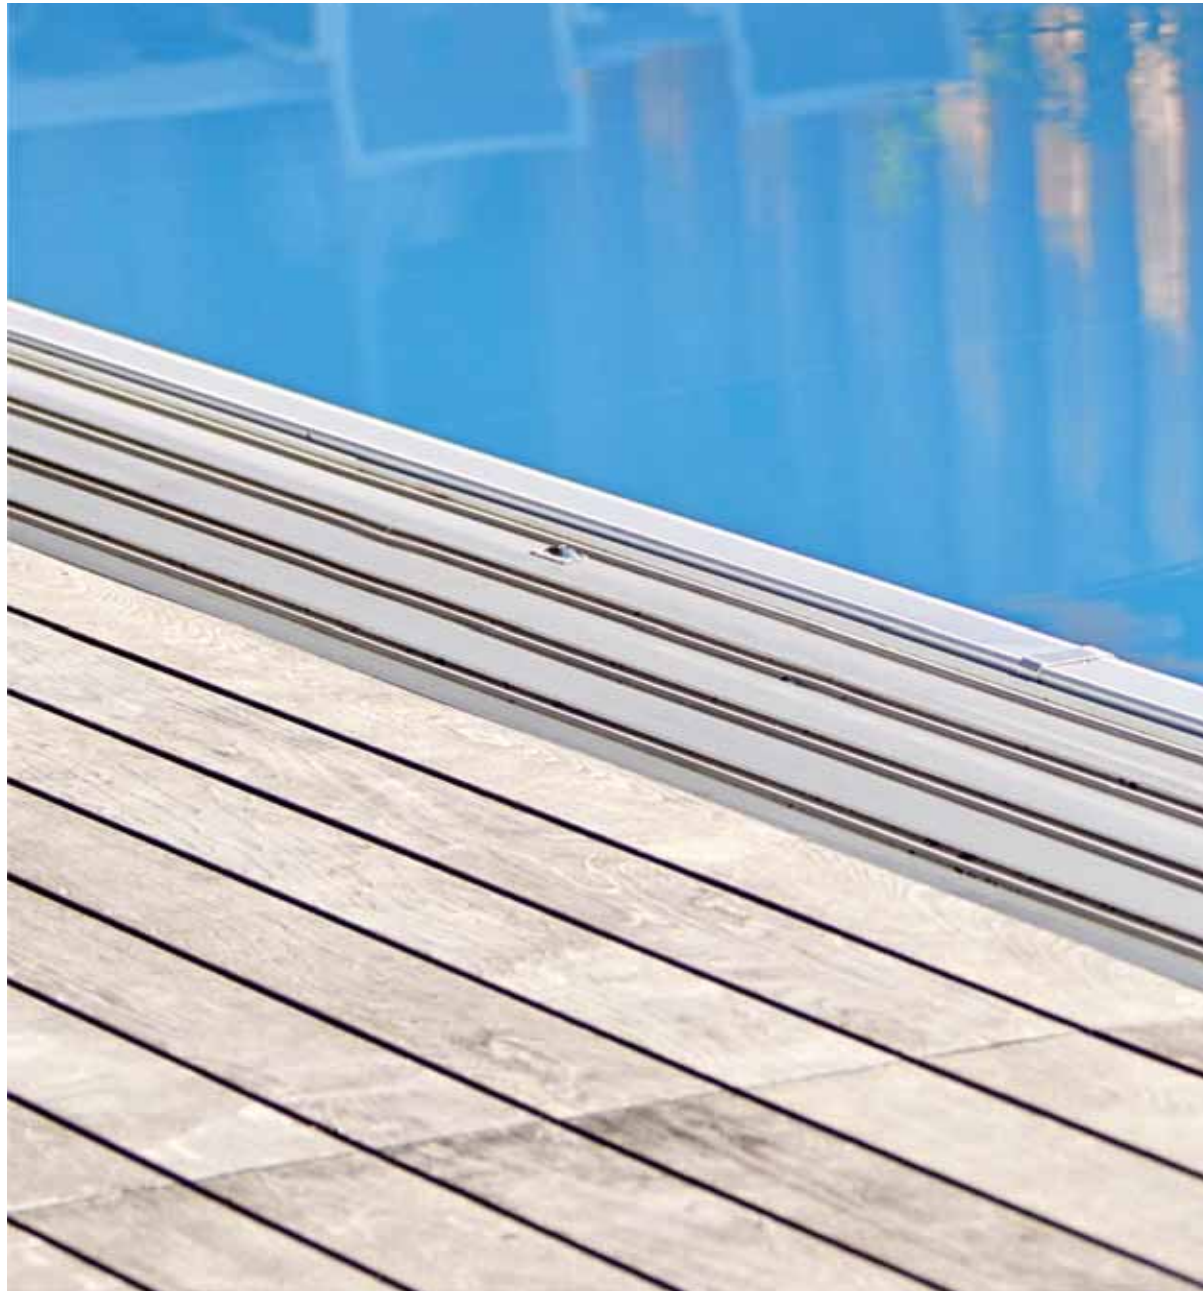

ANODISED ALUMINIUM IN COLOUR OF ENCLOSURE

We supply silver anodised aluminium and champagne anodised aluminium.

LINIE MODEL

MAXIMUM EMPHASIS ON DESIGN

The lowest possible shapes of the COMFORTline enclosure with transparent glass edges will ensure an unimpeded view of the pool surroundings.

SYMFONIE MODEL

LOW YET FUNCTIONAL

This discreet type of enclosure is suitable for situations when it is required not to disrupt an existing architecturally-balanced landscape of the garden and pool surroundings, while all advantages of an enclosed pool remain.

SYMFONIE PLUS MODEL

PRACTICAL CHOICE

If you can't decide, choose a combination of a higher DIAMANT Praktik enclosure and low DIAMANT Symfonie model.

PRAKTIK MODEL

TRUE CLASSIC

Simplicity and great strength - main features of this classic type of enclosure. Its design is suitable even for heavy-snow weather conditions.

AUTOMATIC ENCLOSURE SLIDING RAIL

EXCLUSIVELY FROM DIAMANT

An electronic sliding including smart remote control can be installed extra to any type of manual pool enclosure.

- **MAXIMUM QUALITY**
electronic sliding ensures optimal retraction of individual segments
- **MAXIMUM SAFETY**
all segments lock automatically upon sliding, safety stop (stopping at obstacle)
- **MAXIMUM COMFORT**
electronic sliding of all segments with a single click of a button on your remote control
